Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

This is an outrage!!! Tracfone gives great service to it's customers and even though I do not use my phone much, it nice to know that it's affordable. If someone with the same service uses over 300 units per month, I don't think it's fair for me using only 25-50 units per month. Why take more money from honest hardworking people to give to rural areas. Please refrain from the large increase of fees to this company, this will only hurt us customers.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
